PROFESSIONAL JOURNEY

- **2024:** Completed BCA with focus on software development and web technologies
- **2023:**
 - Developed Netflix clone project showcasing full-stack development capabilities
 - Strengthened expertise in DSA and advanced programming concepts
 - Built portfolio of personal projects on GitHub
- **2022:**
 - Commenced Bachelor of Computer Applications at DPG Institute
 - Established strong foundation in programming fundamentals
 - Started learning web development technologies
- **Prior to 2022:**
 - Completed high school education with focus on computer science
 - Developed initial interest in programming and technology
 - Built basic programming skills in C++

EDUCATION

Bachelor of Computer Applications

DPG Institute of Technology & Management

March 2022 - Present

- CGPA: 7.3/10
- Relevant Coursework: Data Structures, Database Management, Web Development, Programming Languages

High School

Kendriya Vidyalaya No. 1, Gurugram

- Academic Score: 60%

TECHNICAL SKILLS

- **Programming Languages:** C++, JavaScript
- **Web Technologies:** HTML, CSS
- **Database:** SQL
- **Other Skills:** Data Structures and Algorithms (DSA)

PROJECTS

Netflix Clone

- Developed a full-stack video streaming platform replicating core Netflix functionalities
- Implemented responsive user interface using HTML, CSS, and JavaScript
- Created dynamic content loading and user authentication features
- Utilized database management for content organization and user data
- **Technologies Used:** HTML, CSS, JavaScript, SQL
- **Project Link:** [GitHub Repository](#)

STRENGTHS

- Strong problem-solving and analytical skills
- Quick learner with ability to adapt to new technologies
- Excellent attention to detail
- Good understanding of software development lifecycle
- Strong foundation in data structures and algorithms

LANGUAGES

- English
- Hindi
